

Computer Communication - Exp-1

Name : Rahul Gaud

Reg No: RA1911030010094

Batch: CSE-TP304-02.

Aim: To demonstrate peer to peer network.

Software Used: Cisco Packet Tracer 7.3.0.

Procedure:

- Drag a 1941 router into workspace
- Drag two PC's into work space.
- Connect router with both PC's using straight wire cables.
- Assign IP address and gateway address to both the PC's (subnet mask is also auto-generated).
- Assign gateway address at PC's as IP address in router.
- To ping, click on a PC and go to command prompt and give <ping IP address>. Eg: ping 10.0.0.2.
- Output will be displayed in the same window.

Result: Therefore, peer to peer network has been demonstrated successfully using cisco packet tracer 7.3.0.
