

Computer Communications - Exp-3

Name: Rahul Gaud

RegNo: RA1911030010094

Batch: CSE-02.

Aim: To create a secret password in the router.

* The router was configured and the password was created through the following commands.

1. open router's CLI.
2. Type > enable & conf t > interface g0/0 > set ip address
no shutdown > exit > line vty 0 > password: cisco &
login > exit > line console 0 > login exit >
enable secret password > exit > exit > wr > enter.

Result:

The secret password was created and tested.
